Event Name: Identify the startups

Event Description:-

- The event would be a quiz type.
- It would be taken online on a application "Kahoot".
- The questions will be preloaded with options on the app and the students who joins through a 4 digit PIN will be entered into our quiz.
- The questions would be based on identifying taglines, founders, logo, etc of trending startups.
- There will be certain number of seconds to answer each question.
- The top 10 winners will be evaluated by the app itself.
- The quiz will be in 2 rounds. First round for all the participants
- And 2nd round will be started in about after half hour after completion of first round consisting of top 20 qualified students in the 1st round

Event Rules:-

1. All the participants should have downloaded "Kahoot" Application
2. The PIN to join the quiz will be shared with the participants 5 mins before the starting of the event/quiz.
3. The username of the participants is to be set in the format
   <enrollment no_name>. If name not set in this format then he/she will be disqualified
4. If the participant joins late or leaves in between the quiz, he/she will be disqualified
5. No extra time will be allotted to the ones joining late

Judging Criteria:-

- The points of correct answer will be awarded to the participants with respect to the time (in seconds) they answer from the question presented to them.

- The winner list received from the evaluation chart of the app would be final.
